

MDP Cluster meeting results

Theodore Zahariadis

**NAVS Concertation Meeting
April 2008**

Participants

- Projects that participated

FP6

1. ENTHRONE II
2. EMANICS
3. Games@Large
4. HAH
5. PORTIVITY
6. MOBISERVE

FP7

1. ADAMANTIUM
 2. NAPAWINE
 3. P2PNext
 4. SEA
-
1. OPTIMIX
 2. Content
 3. SALA+

- 18 Participants
- Email List: mpdcluster@synelixis.com (35 members)

Cluster Focus

- Cover the *Networking* part of **Networked Media**
- **Multimedia Optimised Delivery and Dynamic Adaptation**
 - Content preparation/packetization/signaling:
 - Network aware content coding: SVC/MVC/MDC
 - P2P multi-source/multi-network content streaming
 - P2P optimisation for content searching/finding
 - Media-to-network cross layer dynamic adaptation
 - Reduce start-up/modification/adjustment delay

Results Actions taken

- MDP cluster considers that *Future Internet* is a very important aspect and is willing to support the future activities.
 - Content Group (Th. Zahariadis, P. Daras, J. Point)
 - Contributions to Networking Group, Services Group, Security Group
- We intent to prepare a issues paper with **MPD main research challenges** as a consultation activity for future CFP
 - Deadline: 15 June 2008
- We intent to prepare a white paper summarizing the state-of-the art and future research challenges in optimized **Multimedia Content Delivery over the Future Internet/Converged Networks**
 - Deadline: 15 September 2008

Thank you
